Community

Fall 2018 Issue

# Greetings from the Co-Presidents

Hello Barkompanions,

It is our pleasure to welcome you to the Fall 2018 semester!

We are excited to continue many of the traditions and events we have done in the past, like Barrio(kada) Fiesta, Bahay Kubo, and the Amazing Race. We are also looking forward to reviving some old favorites and bringing you new programming and new rituals to take with us into the years to come.

Not only are we eagerly anticipating to grow with our own Barkada family, but the Pan Asian American Council and District 1 as well—we are excited to continue to collaborate and deepen our ties with members of these groups over the coming year. Regardless of when you joined Barkada, these are great opportunities to meet members of other schools and communities you might not normally have met!

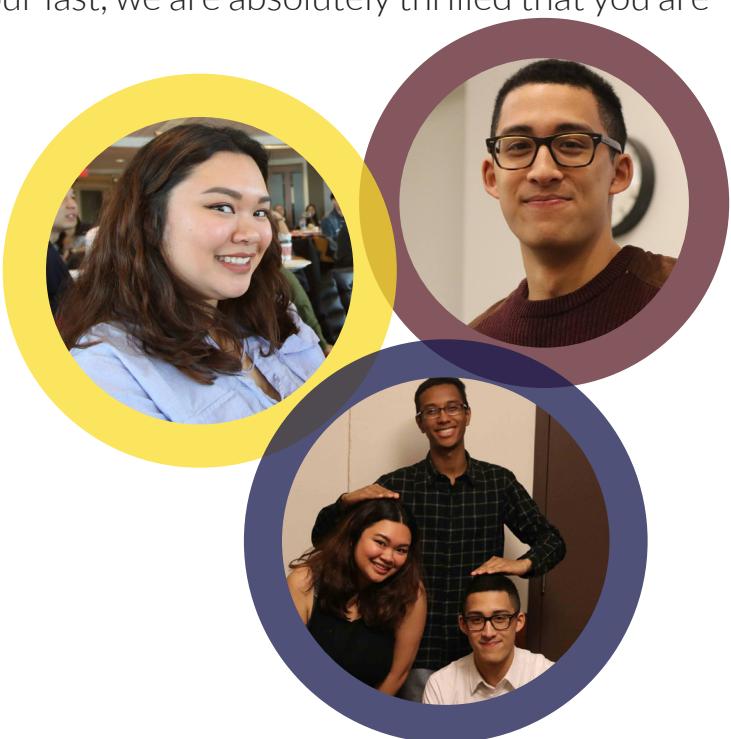

New or old, remember that you are and will always be a part of this big loving family! Our hope for you this year is that you find new friendships, explore new aspects of Filipino culture, and create memories to last a lifetime! Barkada would not be the family it is without all of you, so thank you for your energy, enthusiasm, and passion that makes a home for everyone.

Whether this year with us is your first or your last, we are absolutely thrilled that you are joining us for the year ahead!

Peace. Love. Barkada.

Your Co-P's,

*Amanda and Martin*

# What is Barkada?

Established in 1998, NU Barkada became the first and only Filipino student organization at Northeastern University. The club is dedicated to celebrating the vibrance of Filipino heritage through community engagement in cultural, educational, and social activities. The group strives to do so by performing traditional dances and songs, cooking national foods, and educating others on the roots of Filipino heritage.

In Tagalog, “barkada” means “group of friends.” To our members, Barkada means more than that. Barkada does not only express Filipino culture through its various events; it exhibits Filipino values such as hospitality, respect, resilience, compassion, and dedication through its members. Barkada fosters strong friendships through our BIGGIEsmalls program and family dinners, while motivating students to prioritize education through Barkademics. The organization provides its members with various outlets of self-expression through singing, dancing, leadership opportunities, and much more.

Through our collaboration with Northeastern's Pan Asian American Council and the Filipino Intercollegiate Networking Dialogue's District One, Barkada is able to promote diversity and fellowship, while Filipino culture within our own campus as well as the greater Boston community. Together, we organize several events and gatherings throughout the year to strengthen our network and bond with each other.

Barkada welcomes anyone and everyone with open arms, regardless of background, and embraces each person's individuality and uniqueness.

*My Barkada is my home away from home.*

*My Barkada is my group of friends.*

*My Barkada is Your Barkada,  
so welcome to the family!*

Your VP,  
**Sheena**

Fall 2018 Issue

# What's a Sari Sari?

In the Philippines, a “sari-sari” refers to convenience stores that are found in neighborhoods and streets. These family-owned shops play integral roles in small communities and towns in the Philippines. While the direct Tagalog translation of “sari-sari” means “variety” or “miscellaneous,” to Barkada it holds a completely different meaning.

The Sari-Sari refers to our bi-annual print newsletter, showcasing what Barkada has to offer in the beginning of each semester. In the Sari-Sari you will be able to find a variety of people, articles, and photos all about Barkada. You'll get to meet our Executive Board, the leading people behind our club. Learn more about District One and the Pan Asian American Council, two larger organizations that Barkada is a part of. Want to learn more about BIGGIEsmalls? Not the Notorious B.I.G., but Barkada's own mentor/mentee program. Get a taste of some of our new, old and even OLDER members that are a part of Barkada and its history.

We'd like to give a warm welcome to our new members that will be joining us this semester and hope that our family has everything to offer to you. We'd also like to welcome back our returning members from a long summer vacation. On behalf of the Barkada EBoard, we are excited to announce what plans and events we have in store for this year.

A final thank you to all who contributed to the Sari-Sari! To the EBoard for their articles, the general members for their beautiful faces, and the alumni for taking their time to partake some wise words. Maraming Salamat and we hope you enjoy!

Your PRs,

*Ralph and Yunki*

# Meet the Executive Board

President

*Amanda Escaba*

**Major** Computer Science & Design

**Year of Gradation** 2020

**Hometown** Montgomery, NY

**Favorite Filipino Food** Bangus

**Other Activities and Interests** Drawing, Painting, Tweeting, Going to concerts, Laughing at my own jokes, Making people cringe at said jokes, Getting boba, FOOD, and Barkada

**What are you looking forward to this fall?** Being an oldie is WEIRD but I'm excited to meet newbies and show them all about Barkada, and make memories with new and old friends!

*Martin Xavier Narciso*

**Major** Criminal Justice

**Year of Gradation** 2019

**Hometown** Wayland, MA

**Favorite Filipino Food** Kilawin

**Other Activities and Interests**

Photography, Krav Maga, Coffee Aficionado, Reading, Husky Ambassadors

**What are you looking forward to this fall?** Trying to finish all the items on my senior year bucket-list (AKA - 101 Things To-Do Before Adulting)!

President

Vice  
President

*Sheena Santos*

**Major** Health Science

**Year of Gradation** 2021

**Hometown** Bogota, NJ

**Favorite Filipino Food** Sinigang

**Other Activities and Interests** NU Athletics National Anthem Singer, Singing, Playing piano, Musical theater, Reading

**What are you looking forward to this fall?** I am really excited to progress further at my first co-op and hopefully work on my own experiments in the research lab!

# Meet the Executive Board

*Mark Choa*

**Major** Business (Finance and Accounting)

**Year of Gradation** 2022

**Hometown** San Marino, CA

**Favorite Filipino Food** Sisig

**Other Activities and Interests** NUin alumni ambassadors, Exploring the Boston food scene, Watching baseball

**What are you looking forward to this fall?**

Experiencing my first Barkada Fall Semester because of NUin

Treasurer

Secretary

*Mia Narciso*

**Major** English

**Year of Gradation** 2021

**Hometown** Wayland, MA

**Favorite Filipino Food** Sinigang, Turon, Ensaymada, There's too many

**Other Activities and Interests** Singing/ Playing instruments, Drawing, Writing, Video games, Bullet journaling

**What are you looking forward to this fall?** Co-op and new members!

**Major** Computer Science & Journalism

**Year of Gradation** 2022

**Hometown** Saipan, Northern Mariana Islands

**Favorite Filipino Food** Bicol Express

**Other Activities and Interests** Part Time at UNIQLO, Huntington News Journalism, Cooking Filipino & Japanese foods, Overwatch

**What are you looking forward to this fall?**

Meeting new freshmen joining us this year, Finding a potential smalls, First year being on E-Board!

*Ralph Dela Cruz*

**Hometown** San Mateo, CA

**Favorite Filipino Food** Pancit Palabok

**Other Activities and Interests** Running!! Food!! Dance!!!

**What are you looking forward to this fall?** I'm looking forward to dance practices with old and new friends!!

*Meryl Franco*

**Major** Biology

**Year of Gradation** 2021

**Hometown** Pasadena, CA

**Favorite Filipino Food** Pancit Palabok

**Other Activities and Interests** NUDanco

-- I dance a lot, I love to read, and I LOVE WATCHING MOVIES, especially animations!

**What are you looking forward to this fall?** Kamayan and Dance4Me!

Performance Coordinator

Media Specialist

*Abby Mungcal*

**Major** Chemistry

**Year of Gradation** 2021

**Hometown** Lockport, IL

**Favorite Filipino Food** Empanadas

**Other Activities and Interests** NUSAA-CS (chem club), Photography, Writing

**What are you looking forward to this fall?** meeting new people, having a great time, and taking hella cute pictures of everyone's beautiful faces

Historian

# Meet the Members

## Emily Chuang

Graduation Year: 2019  
Major: Speech-Language Pathology and Audiology  
Hometown: Lexington, MA

My favorite moment from last year is when HONUX-JSA had a mochi making event people showed up to support BKD fam (ayo Creighton), and I had nice bonding moments with my ~\*family\*~.

Also when three separate groups of BKD peeps decide to choose NOLA as their spring break destination. That was really fun as we all met up and bonded over beignets and grilled oysters.

## Korry Valley

Graduation Year:  
2021

Major: Business Management  
Hometown: Alabang, Philippines / San Diego, CA

My favorite moment from last year was Kamayan ~ I was really surprised at how much I enjoyed dancing with everyone :)

## Santiago Tolentino Pachecho

Graduation Year:  
2021/2022  
Major: Pharmacy  
Hometown: Los Angeles, CA

My favorite thing about Barkada is being in an environment that supports every person that comes across it.

My favorite memory from last year was picking up my smalls, Pauline and Kristen!

Fall 2018 Issue

# Pan Asian American Council (PAAC)

The Northeastern Pan-Asian American Council, or PAAC, is an umbrella organization comprising of 11 Asian American clubs. The members include: Asian Student Union, NU Barkada, Beta Chi Theta Fraternity, Chinese Student Association, Delta Phi Omega Sorority, Kappa Phi Lambda Sorority, Korean American Student Association, Pi Delta Psi Fraternity, Society for Asian Scientists and Engineers, UTSAV, and the Vietnamese Student Association.

Founded on the need for a common space for dialogue among Asian Pacific Islander Desi American (APIDA) students, PAAC was formed in 2005. The council serves as a community that binds the 11 organizations encouraging collaboration and companionship amongst members.

The Pan Asian American Council is upheld by its three pillars developed in 2016: Self Knowledge, Community Awareness, and Intentional Allyship. PAAC seeks to provide opportunities for students to develop knowledge of their own histories and identities, while creating awareness of what it means to be APIDA at Northeastern. With its 11 organizations, PAAC seeks to build thoughtful connections regarding experiences and struggles, not just within the Northeastern community, but with other marginalized populations.

PAAC strives to be responsive to the community's needs. PAAC recognizes the importance of building a community by listening to and learning from each of its organizations. We hope that you come to not only Barkada's events, but to the other ten organizations' events as well.

Your Internal PR/PAAC Rep,

*Yuuki*

Fall 2018 Issue

# District One & FIND Inc.

Boston is home to many different colleges and universities other than Northeastern University. As result, there are many other collegiate Filipino organization in the city. Boston University, Boston College, UMass Boston, UMass Lowell, Wellesley College, Brown University, Simmons University and Harvard all have their own Filipino clubs and (Barkada included) are all connected through the umbrella organization called the Filipino Intercollegiate Networking Dialogue or FIND Inc. FIND consists of 8 district the span the length of the east coast starting at District 1 in Boston to District 8 in Florida. FIND's mission statement is to "promote unity and cooperation of Filipino students at colleges, universities, vocational, and technical schools, or any other institutions of higher education."

As stated NUBarkada is part of D1 and throughout the year there are several events hosted by one of the many other schools in the same district. One major event that Barkada goes every fall is Kamayan which is a culture show in which every school in D1 perform songs as well as modern and traditional Filipino dances. In the spring time, D1 hosts Sosyal which is a semiformal dance that is open to everyone in the district. These are all great networking events to go to whether it is to get better, professional connections or simply to make new friends around Boston. My duty as external PR is to act as Barkada's ambassador to the other D1 schools and connect our members to the greater Boston community.

D1 is just one of the districts of FIND. If you are willing to make a trip to UConn this fall, FIND is hosting a Dialogue which is an all-districts wide conference in order to explore Filipino culture and identity and have conversations with Filipino students throughout the east coast. Hope to see you there!

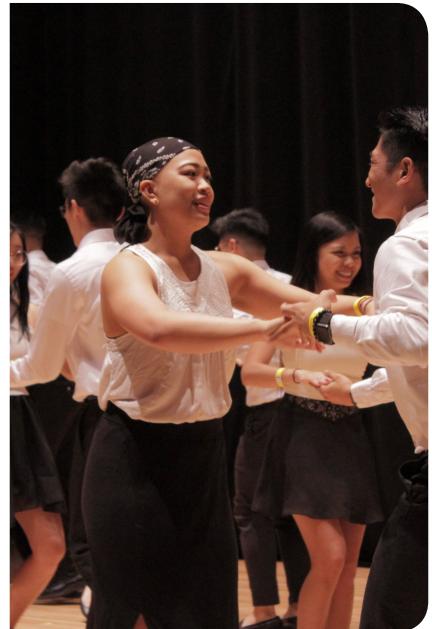

Your External PR,

*Ralph*

# All Things Dance!

Dance and Filipino culture are one in the same. They both bring people together. Just through the simple act of moving our bodies, we connect and bond with each other to create a stronger community. Barkada emphasizes that it doesn't matter if you can or cannot dance, what's important is that we are all having fun and enjoying the music as it brings us closer to one another.

For both the Fall and Spring semester, we have a modern set that is choreographed by some of your fellow Barkada members. (Anyone can choreograph!) Choreographers are able to choose a song according to the theme set by the performance coordinators and choreograph any style they prefer. The dances can be pop, hip hop, or more lyrical and they usually incorporate traditional Filipino dance elements. In the Spring semester, Bahay Kubo is our main showcase that consists of a modern set and a traditional set. The traditional set includes tinikling, pandango sa ilaw, maglalatik, bulaklakan, and ballroom - these change every year and are choreographed and danced by Barkada members! Remember that anyone can

choreograph! You don't need to have experience and those with dance experience are always willing to help and support!

Joining Barkada dance, encouraging new members to join, and attending practices all help towards making our performances successful! We encourage everyone to join, whether you had danced before or not. It is a great way to meet new people and be a part of our Filipino culture in a fun and dynamic way! You are guaranteed to learn something new and have lots of fun!

Your Co-Performance Coordinator,

*Meryl*

# Dance For Me & Kamayan

Every fall semester, Barkada members eagerly await two incredible opportunities, Dance for Me and Kamayan to dance and show off Filipino culture. Over months of preparation, Barkada puts together both modern and traditional sets to be shared within the Northeastern community and the Boston community as well.

Dance For Me, a Northeastern dance competition, brings together dance organizations and other student groups to raise funds towards a charity. The award categories are broken down to the following: Best Student Group, Best Competing Group and Crowd Favorite. While the judges select two organizations for the initial categories, the latter category is decided by a crowd voting via text. After months of rehearsals, Dance For Me allows Barkada to showcase our work to the rest of our community.

Kamayan, traditionally meaning “eating with your hands”, is District 1’s annual culture show that features schools such as: Boston University, Boston College, North-

eastern University, Brown University, UMass Boston, UMass Lowell, Wellesley University, Simmons University and Harvard University. Each year, the host location for Kamayan rotates amongst the schools within District. In general, schools perform various traditional filipino dances and a modern set. Typically, the host school performs tinikling while other schools will perform Filipino Dances such as but not limited to: Maglalatik, Itik-Itik, Sayaw sa Bangko and Pandango sa Ilaw. A jam-packed full day event, Kamayan serves as a great way to not only perform for other communities but get to know members of fellow D1 schools.

No matter your dance background, we strongly encourage everyone to participate in these dance performances. To the Barkada community, these performances have meaning beyond a dance performance. Through dance, these performances form friendships, bring us together and demonstrate our tight-knit family environment that Barkada strives to foster.

Your Co-Performance Coordinator,

*Michael*

Barkada has always been about family. Friends who stick together, the people who have your back through everything - the ones who laugh with you during dance practice, help you with (or, more often than not, distract you from) studying for exams, offer to help you with that essay or project, swipe you into the dining halls, comfort and cry with you before Bahay Kubo. Barkada's BIGGIEsmalls program is just another facet of this same sentiment. Everyone in Barkada will always be willing to help you or hang out with you, but your Barkada family will always be that extra special group of people who you can rely on no matter what.

BIGGIEsmall's is Barkada's mentoring program - the E-board works to pair those who apply with a BIGGIE or a small that fit each other's personalities, based on a questionnaire, and these pairings grow and grow into families. Your BIGGIE and your family are there to act as your support system throughout college. Ideally, you can go to your BIGGIE (and the rest of your family) for help and advice on college: what classes to take for your core requirements, the best places to eat in Boston, how housing works, how to manage your workload and practice good time management. During my freshman year, I was an N.U.in student, so I felt really lost during my first semester at the Boston Northeastern campus. Having a BIGGIE to ask questions, with things as simple as "How do I do laundry?" is something I'm forever grateful for because it really helped me transition and navigate through the semester with relative ease. But more than help or advice, they also become the people who are always ready to help you in other ways; when, sometimes, what you need isn't advice, but a shoulder to lean on when the going gets tough. The people who will remind you take care of yourself, to sleep, to eat, drink water, take a break and breathe.

With BIGGIEsmalls you gain people to laugh with, people to talk late into the night with, lifelong friends who become your motivators and inspiration. You gain friends who will help you grow and learn to love yourself. You gain a sense of belonging.

Your Secretary,  
*Mia*

# To Newbies, From Previous Newbies

Sophomore | International Business

*Lauren Bough*

Learn people's names; remembering someone's name the second time you meet them goes a long way. And even if you're really bad at names, don't sweat it. Don't be afraid to introduce yourself to everyone, especially oldies and your own class! Barkada's older members are looking forward to meeting the incoming class and becoming friends with you. As newbies, you should also want to get to know each other. Take advantage of this by saying hi when you see other members around campus, or by going to different events, study sessions, and hangouts!

Sophomore | Bioengineering

*Aya Aragon*

You can fit 6 cookies into a coffee cup at a dining hall. The best time to get lunch at Rebecca's is at exactly 11:15am, any earlier and there's no chef's specials, any later and you'll get stuck with the lunchtime rush. Gong Cha over KFT over Chatime. Sign up for every club that interests you even slightly, and go to their first meeting. That's how I met Barkada, and I can't begin to imagine college without them. <3

Sophomore | Health Science

*Jessie Xiao*

Don't be afraid to take opportunities that are in front of you. This is the most ESSENTIAL advice I have to offer. Barkada opened up so many opportunities for me that I've never thought of whether it be learning how to dance to meeting other students from other colleges like Harvard and Boston College. Do not be afraid to open up. While it can be intimidating to strike a convo with an upperclassman or someone else in general, you can create a meaningful friendship with a simple hello. With these friendships, you have a safe space where you can talk with others and find people that support you throughout your college career and even into the future after. And to end it, remember to always have fun.

# To Newbies, From Oldies

## Allan Wong

Class of 2019, Bioengineering

Hi newbies! Two pieces of advice I can give are to be present as much as possible throughout your time at Northeastern and always be a completely genuine version of yourself. It feels like just yesterday I went to my first Barkada GM, and all of a sudden I'm graduating and terrified of blossoming into an actual adult! Really soak in all the memories you gain here and don't feel pressured to fit anyone else's mold to feel like you belong. Just be yourself and your true friends will fall into place! P.S. - don't sell your soul to RezLife and being an RA until at least your 3rd year.

## Sam De Lara

Class of 2019, Media Arts (Animation)

Reflections on Last Year/Advice for Newbies: Wowee college goes by quickly. Make the most of the time that you have here- take a non-major related class that you think you'd be interested in, make a new friend, try a new hobby, be involved in a new club like Barkada, etc. Do things that take you out of your comfort zone and use this time to explore yourself as well as the things that you like (or think you might like). Listen to your gut, remember self-care is important, and you'll be fine. College is a fun time :)

## Dorothy Yu

Class of 2020, Computer Science

Join dance! It's a really, really easy way to make friends in Barkada, fast and free. :) You don't even have to be a dancer to join!!! I never danced a day in my LIFE before I joined BKD dance but all the friends I made when I was a young baby student were from attending dance on the weekends!

# To Newbies, From Oldies

## Eric Makapugay

Class of 2021, Biology and Music

I know this sounds kind of cheesy, but it's important to understand who you are and what your beliefs are. You're going to meet people who will be completely different from your friends back home and realize what qualities make your friends special. When I was a freshman, I had a lot of fake friendships that fell through in a couple of months. It was difficult at first when you're on your own, but honestly, it was an important learning experience. I came to understand what made my best friends my best friends. Find those qualities in the people you meet in college. Know who you are, so you can surround yourself with people who will make you a better person.

## Charlie "Zaddy" Outlaw

Class of 2019, Economics & Mathematics

College can be WILD in all of the best and worst ways. Either way though, college is best served with a side of courage- embracing all of the things you'll experience! Make new friends, explore different places/colleges around Boston & beyond, learn new skills, etc! There are so many opportunities to grow and you might end up loving something outside of your comfort zone :) Feel free to say hi/ chat with me whenever ya see me! Also f4f me on insta

# Where are they now?

## Kyle Tengco Class of 2018

Howdy Barkada! Newly alum here! Upon graduating this past Spring, I thought I would move back home to New Jersey and start job hunting in Manhattan. I thought I would take things slowly and let the mysteries of post-grad and quarter life crises unravel. I let that be my reality for I think 5 days until I decided to apply to come back to Northeastern as a graduate student!

Midway through the summer, shortly after I got my Alumni ID, I was accepted and enrolled! Allow me to re-introduce myself, newly alum and 1st year GRAD STUDENT here! (...in need of trading my Alumni ID back for a student one.)

Since May, I have been helping my parents move from Long Island to New Jersey while setting up my 6th (and probably final) year in Boston. In addition to pursuing a Master's degree in Experience Design, I am working part time at one of my old co-ops at Commonwealth Financial Network, and I am also assisting ARTG 2260: Programming Basics!

Oh! And there's dance somewhere in there too! Catch me dancing on INC (a local Boston dance crew) as well as Nomads (alongside some other Barkadudes!)

I'm excited to be starting post-grad life in the city that raised me. Barkada is responsible for a huge portion of that upbringing. It has given me many opportunities and many memories. What I will miss most about Barkada is the dancing! Dancer or not, it is the quickest way to become immersed in the club. Learn what a single-single double-double is and get your ankles clapped by Tinikling sticks. Maybe you'll learn how to wig-a-lo! Since I'll still be here in Boston, you can bet I'll be cheering you all on at every performance from the front row!

Cheers Barkada! Can't wait to see all the great things you'll do this year! See y'all around campus!

# Where are they now?

## Kaye Sta Rosa Class of 2008

My name is Kaye Villarreal (formerly Kaye Sta Rosa) and I graduated in 2008 with my doctorate in physical therapy

I am currently residing in Boxford, Ma which is about 30 minutes north of Boston. I am currently working as a home care physical therapist for Nizhoni Health which involves treating patients with mental health diagnosis. Since graduation, I quickly worked up the rehab ladder from being a physical therapy aide to staff physical therapist to assistant director and then director in a skilled nursing facility though I have also worked in hospital settings for per diem work. I got married in 2010, had three children in 2011, 2012, and 2014, rescued a Basset hound/beagle mix dog and recently acquired two baby chickens! I also started a blog called Work It and Mom ([www.workitandmom.com](http://www.workitandmom.com)) this year.

What I miss about Barkada is the constant availability of friends and all the events and activities we used to do. College was the best years of my young adolescent life because of all the friends I got to know in Barkada!

My family!

Kamayan 2002 (with Greg and Paul)

Some of the first Barkada members

Paul, the President of Barkada when I was a freshman

Kamayan 2006 (with Malachi, the founder of Kinematix)

# Where are they now?

## *Oliver Cervantes* Class of 2016

For a little over two years after graduating, I stayed in Boston and conducted research at MGH (Massachusetts General Hospital). Some highlights include: sleeping in a queen sized bed with my parents when they visited so they could save money (I was not in the middle), leaving the lab before 10pm, and living with a sweet twenty-year-old cat named Precious.

During my second year out, I applied to medical school, and that's where I am now, having started classes at the University of California San Francisco. Apparently, the summer is the coldest season here, and from where I live, I rarely see the sun because of a thick layer of fog. But that's okay, because I have my friends. It is a lot of work, but it feels good to be this much closer to my dream of being a good doctor.

There is plenty I miss about Barkada. The thing I miss most is spending quality time with my best friend, Carl. Sometimes, we would get Wally's sandwiches and study at the library. We would also take all the bananas from the dining hall. He is a significant reason why I find myself here today, studying medicine, and it's not because he told me to, it's because best friends help you be the best version of yourself. And I could not have started medical school without having strived for a better version of myself. We got close through Barkada and that's why this is relevant.

I also miss dancing, performing, and choreographing. I miss the warm atmosphere and sense of community and the smiles and laughter. Barkada is home away from home for a lot of us, and having graduated and left the city, I can appreciate that now more than ever. Among the crashing waves and overcast horizons of life, cherish and remember the beautiful moments you experience with others. That's my word of advice, because I find myself coming back to them all the time.

# Where are they now?

## Menaka Sanghvi Class of 2017

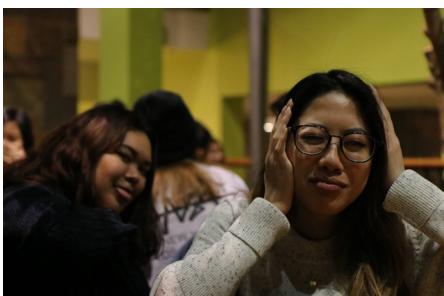

After graduating in December I went back home to New Jersey and traveled back and forth between there and Boston for about two months while on the job hunt. Since then I've mainly been working. I spend my free time sketching, trying to reteach myself how to play the piano, and enjoying the summer weather with friends. Eventually, I returned to Massachusetts/Greater Boston area for work. I am currently living in the Brighton area. Now, I work for Novartis Institutes for BioMedical Research in Cambridge as a research associate in their pharmacokinetics department.

What do I miss most about Barkada? Can I say everything? I guess I miss the people the most, especially my Biggie and Smallses (if you want one piece of advice from this oldie, it's to join Biggie/Smalls. You won't regret it). The eboards each year worked very hard on having great GM's, outings, and dances. But what really made all of it so fun and why I kept coming back was because of the members. Everyone was so welcoming when I first joined, and from dhall nights to Barkademics, you get really close to everyone. Barkada might mean a group of friends, but it felt more like kapamilya to me.
